

ROSCA Committee Management Web App

Software Requirement Specification (SRS) & Agentic Implementation Blueprint

Project: 10-Member Daily ROSCA **Backend:** Core PHP 8.x + MySQL **Local Stack:** XAMPP (Apache + MariaDB) **Target Prod:** Hostinger Shared / Cloud

Prompt Instruction for AI Agent: You are tasked with developing a lightweight, secure, and intuitive web application using **Core PHP (Procedural/Modular OOP)** and **MySQL (PDO)** without external heavy frameworks. Follow this blueprint strictly to build and verify the application on the local XAMPP environment before deploying to Hostinger.

1. Executive Summary & Business Logic

The system automates the daily collection, lottery payouts, and transparency tracking for a 10-member Rotating Savings and Credit Association (ROSCA). The financial cycle runs for 10 months starting from **01 September 2026**.

Parameter	Specification	Details
Total Members	10 Members	1 Cashier/Admin + 9 General Members
Daily Contribution	₹ 1,000 / member	Total daily pool: ₹ 10,000
Monthly Payout Pool	₹ 3,00,000 (30 Days)	Disbursed to 1 member per month
Cycle Duration	10 Months	01-09-2026 to 30-06-2027 (Total ₹ 30,00,000)
Month 1 Payout	Shahriar Rubel (Cashier)	Special Selection: Assigned Month 1 (Sep 2026) without lottery.
Month 2 to 10 Payout	Remaining 9 Members	Transparent randomized digital lottery (1 winner/month).

2. Complete Member Directory & Seed Data

ID	Member Name	Role	Phone (Default Login)	Initial Status
1	Shukur Ali	Member	01700000001	Eligible for Lottery
2	Shahriar Rubel	Admin (Cashier)	01700000002	Payout Assigned (Month 1)
3	Ariyan	Member	01700000003	Eligible for Lottery
4	Zayan	Member	01700000004	Eligible for Lottery
5	Aiyan	Member	01700000005	Eligible for Lottery
6	Rayan	Member	01700000006	Eligible for Lottery
7	Fahad	Member	01700000007	Eligible for Lottery
8	Imran	Member	01700000008	Eligible for Lottery
9	Samin	Member	01700000009	Eligible for Lottery

ID	Member Name	Role	Phone (Default Login)	Initial Status
10	Nafis	Member	01700000010	Eligible for Lottery

3. Database Schema (MySQL / MariaDB)

```
-- 1. Database Creation CREATE DATABASE IF NOT EXISTS rosca_db CHARACTER SET utf8mb4 COLLATE
utf8mb4_unicode_ci; USE rosca_db; -- 2. Members Table CREATE TABLE members ( id INT
AUTO_INCREMENT PRIMARY KEY, name VARCHAR(100) NOT NULL, phone VARCHAR(20) UNIQUE NOT NULL,
password_hash VARCHAR(255) NOT NULL, role ENUM('admin', 'member') DEFAULT 'member', nid_number
VARCHAR(30) NULL, nominee_name VARCHAR(100) NULL, nominee_phone VARCHAR(20) NULL,
is_payout_taken TINYINT(1) DEFAULT 0, payout_month VARCHAR(30) NULL, created_at TIMESTAMP DEFAULT
CURRENT_TIMESTAMP ); -- 3. Daily Collections Table CREATE TABLE daily_collections ( id INT
AUTO_INCREMENT PRIMARY KEY, member_id INT NOT NULL, collection_date DATE NOT NULL, amount
DECIMAL(10, 2) DEFAULT 1000.00, status ENUM('paid', 'due', 'late') DEFAULT 'paid',
penalty_amount DECIMAL(10, 2) DEFAULT 0.00, collected_by INT NOT NULL, notes VARCHAR(255) NULL,
created_at TIMESTAMP DEFAULT CURRENT_TIMESTAMP, FOREIGN KEY (member_id) REFERENCES members(id) ON
DELETE CASCADE, UNIQUE KEY unique_daily_entry (member_id, collection_date) ); -- 4. Monthly
Payouts Table CREATE TABLE monthly_payouts ( id INT AUTO_INCREMENT PRIMARY KEY, month_cycle INT
NOT NULL UNIQUE, month_name VARCHAR(30) NOT NULL, recipient_member_id INT NOT NULL, amount_paid
DECIMAL(10, 2) DEFAULT 300000.00, distribution_date DATE NOT NULL, selection_type
ENUM('selection', 'lottery') DEFAULT 'lottery', receipt_doc_url VARCHAR(255) NULL, FOREIGN KEY
(recipient_member_id) REFERENCES members(id) );
```

4. Application Architecture & Directory Structure

```
/htdocs/rosca/ (or public_html/) |— config/ |
|— db.php # PDO connection |— includes/ |
|— header.php # Navbar, CSS links |—
|— footer.php # JS, Scripts |— auth.php # Auth
& Session Check |— admin/ |— dashboard.php
# Cashier overview |— daily_entry.php # 1-
Click bulk entry |— lottery.php # Lottery
draw engine |— members.php # Manage 10
members |— reports.php # Full financial
audit |— member/ |— dashboard.php # Member
passbook |— api/ |— quick_entry.php # AJAX
toggle paid/due |— run_draw.php # Execute
Lottery |— index.php # Modern Login Page |—
logout.php # Destroy Session
```

1 Cashier 1-Click Daily Collection

A fast matrix table displaying all 10 members. Cashier toggles checkboxes or clicks "Mark All Paid (₹ 10,000)" in seconds.

2 Random Lottery Draw Engine

Filters members where `is_payout_taken = 0`. Visual digital spinner picks 1 winner and locks them from future draws.

3 Transparency Member Passbook

Each member logs in with their phone number to see total days paid, due count, penalties, and committee balance.

5. Agentic Implementation Guide (Step-by-Step)

Phase A: Local Machine Execution (XAMPP)

1. Ensure Apache & MySQL are running in **XAMPP Control Panel** (Port 80 & 3306).
2. Create folder: `C:/xampp/htdocs/rosca/`.
3. Access `http://localhost/phpmyadmin/`, create database `rosca_db`, and execute the SQL schema above.
4. Seed the database with 10 members (Password default: `123456` hashed via `password_hash()`).
5. Set **Shahriar Rubel** as Admin with Month 1 payout pre-assigned: `is_payout_taken = 1, payout_month = 'September 2026'`.

Phase B: Hostinger Live Deployment Steps

1. Log in to **Hostinger hPanel** → **Databases** → **MySQL Databases**.
2. Create a database (e.g. u123456_rosca), username, and strong password.
3. Open phpMyAdmin on Hostinger and import rosca_db.sql.
4. Upload all project files to public_html/ via Hostinger File Manager or Git.
5. Update config/db.php with Hostinger database credentials.
6. Enable Free SSL Certificate in hPanel and ensure HTTPS redirection in .htaccess.
